- Check Components: Ensure that all components are in good condition and that nothing is broken. The grinder typically consists of a lid, grinding chamber, handle, and a base.

Step 2: Selecting Your Coffee Beans

- Choose Quality Beans: Select high-quality, whole coffee beans. The flavor and aroma of your coffee are directly affected by the quality of the beans you choose.
- Measure the Quantity: Depending on how much coffee you want to brew, measure out the beans. A common guideline is to use about 1 to 2 tablespoons of coffee beans per cup of water.

Step 3: Adjusting Grind Settings

- Set the Coarseness: Depending on your brewing method, adjust the grind setting. For example:
 - Coarse Grind: Ideal for French press and cold brew.
 - Medium Grind: Suitable for drip coffee makers.
 - Fine Grind: Perfect for espresso.

Step 4: Grinding the Coffee Beans

1. Add Beans: Place the measured beans into the grinding chamber.

Common Issues and Troubleshooting

While the Sboly coffee grinder is designed for reliability, users may encounter some common issues. Below are some potential problems and solutions:

Problem: Grinder is not grinding smoothly

- Check the Beans: Ensure that the beans are not too oily or hard. Oily beans can clog the grinder, while hard beans can cause resistance.
- Adjust Grind Setting: Make sure the grind setting is appropriately adjusted. A setting that is too fine may cause the grinder to jam.

Problem: Inconsistent Grind Size

- Grind in Small Batches: Grinding too many beans at once can lead to uneven grinding. Try smaller batches for more consistent results.
- Use Proper Technique: Ensure you're applying even pressure while turning the handle. Uneven pressure can lead to inconsistent results.

Problem: Difficulty in Turning the Handle

- Check for Blockages: Inspect the grinding chamber for any blockages or buildup of coffee grounds. Clean it out if necessary.
- Examine the Handle: Ensure that the handle is securely attached and not damaged. A loose or broken handle can hinder the grinding process.
