Step-by-Step Guide to Drawing Scooby-Doo

Now that you have an understanding of Scooby-Doo's design and your materials ready, let's jump into the drawing process. Follow these steps for a successful Scooby-Doo drawing:

Step 1: Start with Basic Shapes

1. Draw an Oval for the Body: Start by sketching a large oval shape for Scooby's body. This will be the main part of his frame.
2. Add a Circle for the Head: Above the oval, draw a smaller circle that will serve as Scooby's head.
3. Sketch Guidelines: Lightly sketch a vertical line down the center of the head circle and a horizontal line across it. These lines will help place facial features accurately.

Step 2: Outline the Body and Legs

1. Connect the Head and Body: Draw two curved lines from the head to the body, creating Scooby's neck.
2. Add Legs: Draw four short legs extending from the bottom of the oval. Use simple rectangles or ovals to represent the legs initially.
3. Tail: At the back of the body, sketch a long, curved tail that adds to Scooby's playful demeanor.

Step 3: Create the Facial Features

1. Eyes: Draw two large circles on the head circle, slightly above the horizontal guideline. Add smaller circles inside for the pupils.
2. Nose: At the end of the snout, draw an oval shape for Scooby's nose, making sure it's slightly wider at the bottom.
3. Mouth: Draw a curved line starting just below the nose and extending outward for Scooby's mouth. You can also draw a line for the tongue if you want him to appear to be smiling.
4. Ears: Add two floppy ears on top of the head, using curved shapes that hang down.

Step 4: Add Details

1. Fur Texture: Use short, curved lines along the body and head to indicate Scooby's fur.
2. Collar: Draw a rectangle around Scooby's neck for the collar, then add the "SD" tag by drawing a small circle or rectangle hanging from the collar.
3. Spots: Add darker spots randomly across Scooby's body to give him that distinctive look.

Step 5: Finalize Your Drawing

1. Refine the Outline: Go over your pencil lines with a black marker or pen, making sure to emphasize

the important features.

2. Erase Guidelines: Once the ink has dried, gently erase any remaining pencil marks, especially the guidelines you used for placement.

3. Color Your Drawing: Use colored pencils or markers to fill in Scooby's brown fur, the green collar, and any other details you wish to add.
