History and Founding of Omega Psi Phi

The secrets of omega psi phi are deeply rooted in its rich history, tracing back to its establishment on November 17, 1911, at Howard University in Washington, D.C. This fraternity was founded by three undergraduate students—Edgar Amos Love, Oscar James Cooper, and Frank Coleman—and their faculty adviser, Dr. Ernest Everett Just. The founding was motivated by a desire to create a strong brotherhood dedicated to academic excellence, leadership, and community service among African American men during a period of social and racial adversity.

Origins and Purpose

Omega Psi Phi was established as the first fraternity founded at a historically black college. The founders envisioned an organization that would foster high scholastic achievement, promote manhood, and exemplify perseverance and uplift within the African American community. Its establishment provided a structured network of support and empowerment for college men facing discrimination and limited opportunities.

Early Growth and Expansion

Following its inception, Omega Psi Phi quickly expanded to other universities, establishing chapters that adhered to the fraternity's principles. This growth solidified its position as a prominent organization within the National Pan-Hellenic Council, contributing to the shaping of African American collegiate life and activism throughout the 20th century.

Core Principles and Symbols

The secrets of omega psi phi are reflected in its foundational principles, which guide the conduct and mission of its members.
