The September 11 Webquest is an educational tool designed to help students learn about the events of that day, the aftermath, and its implications on global politics and society. In this article, we will explore the components of the September 11 Webquest, provide an answer key for common questions, and discuss its educational importance.

Understanding the September 11 Webquest

The September 11 Webquest is structured to engage students with various online resources, including articles, videos, and interactive timelines. The goal is to promote critical thinking and understanding of the complexities surrounding the events of September 11 and their far-reaching consequences.

Objective of the Webquest

The primary objectives of the September 11 Webquest are as follows:

1. **Comprehension of Events:** Students are expected to gain a clear understanding of the timeline of events on September 11, 2001.
2. **Analysis of Impact:** The Webquest encourages students to analyze the immediate and long-term impacts of the attacks on U.S. domestic and foreign policy.
3. **Critical Thinking:** By exploring various perspectives, students are prompted to think critically about terrorism, security, and civil liberties.
4. **Empathy and Awareness:** The Webquest aims to foster empathy by discussing the human stories behind the statistics.

Components of the Webquest

The Webquest typically includes several key components:

Introduction

In this section, students are introduced to the events of September 11, 2001. They learn about the four coordinated attacks: two on the World Trade Center, one on the Pentagon, and the fourth, United Airlines Flight 93, which was brought down in Pennsylvania by heroic passengers.

Tasks

Students are assigned various tasks, such as:

1. Research: Investigate the timeline of the attacks and identify significant moments.
2. Interview: Conduct interviews with individuals who experienced the event or its aftermath.
3. Reflection: Write a reflective piece about what they learned and how it impacted their understanding of global issues.
4. Presentation: Create a presentation summarizing their findings to share with their classmates.

Process

The process involves guided steps, where students navigate through different online resources and databases to gather information. This section emphasizes critical thinking as students evaluate sources for credibility and relevance.

Evaluation

In the evaluation section, students are assessed based on the quality of their research, the depth of their reflections, and the effectiveness of their presentations. Rubrics typically include criteria like:

- Content Knowledge: Understanding of the events and their implications.
- Engagement: Participation in discussions and activities.
- Critical Analysis: Ability to analyze and synthesize information.
- Creativity: Innovation in presenting findings.
