Passing this exam allows candidates to sell mutual funds, variable annuities, and insurance-related products, which are vital components of many investment portfolios. The exam tests knowledge of fundamental securities regulations, product features, and ethical considerations. Understanding the exam format, timing, and requirements is the first step in effective preparation.

Exam Format and Structure

The Series 6 exam consists of 50 multiple-choice questions, with a time limit of 90 minutes. The questions are designed to evaluate candidates' understanding of investment products and regulatory guidelines.
