Nemesis System Strategies

- Create Rivalries: Instead of killing every Orc, consider branding them to create allies. This can turn the tide in larger battles.

- Target Captains: Focus on defeating or recruiting captains to weaken enemy tribes systematically.

Exploration Strategies

1. Map Awareness: Always be aware of your surroundings and use the map to locate collectibles and quests.
2. Fast Travel: Utilize fast travel points to save time and revisit areas for missed items.
3. Stealth Mechanics: Use stealth to scout enemy camps and plan your approach before engaging.
