Background of the Musical

The Original Play

"Spring Awakening" originated as a play by German playwright Frank Wedekind. Written in the early 20th century, the play addressed the struggles of adolescence in a repressive society. It was considered scandalous at the time due to its frank discussions of sexuality, abortion, and suicide. The original text was not widely performed until the late 1960s, when it began to gain recognition for its daring themes.

Development of the Musical

The transition from stage play to musical began in the late 1990s when Duncan Sheik and Steven Sater sought to adapt Wedekind's work. Their collaboration aimed to preserve the emotional depth of the original play while infusing it with a contemporary rock score. After several workshops and a successful off-Broadway run, "Spring Awakening" made its Broadway debut on December 10, 2006, at the Eugene O'Neill Theatre.
