Complete Strawberry Wine Lyrics

Presenting the full lyrics to “Strawberry Wine” allows performers to connect deeply with the song’s narrative and emotional tone. The lyrics depict a young woman’s coming-of-age experience, intertwined with the metaphor of strawberry wine symbolizing fleeting youth and passionate moments. Below is the complete set of lyrics, which are essential for any musician aiming to perform the song accurately and expressively. Memorizing the words alongside the chords helps ensure a seamless performance that captures the song’s essence.

- He was working through college on my grandpa's farm
- My daddy was his best friend, I was seventeen
- He told me that I was his half-grown woman
- But that I had the heart of a child
- Oh, to keep him took everything I had
- Not a single word I said could take back
- Those strawberry wine, those summer nights
- With a boy almost grown, lying on the riverbank
- Underneath the willow tree, drinking strawberry wine
- Feeling eighteen and life’s alive and seemingly endless
- Strawberry wine, and all the things that you whispered to me
- The words I’d be wishing on forever and ever

Essential Chords for Strawberry Wine

Mastering the chord progressions is fundamental for replicating the song’s melodic and harmonic structure. The primary chords used in “Strawberry Wine” typically include G, Cadd9, D, Em, and Am, which are common in country and folk music. These chords offer a rich, warm sound that complements the song’s nostalgic and tender lyrics. Understanding how these chords interact within the song’s verses and chorus is crucial for maintaining the authentic feel of the original recording. Below is a breakdown of the essential chords, with basic finger positioning suitable for guitar players at various skill levels.

- **G Major:** A foundational chord that provides a bright tonal base.
- **Cadd9:** Adds a melodic nuance and richness to transitions.
- **D Major:** Offers a strong resolution, often used in the chorus.
- **E minor (Em):** Introduces a somber, reflective mood aligned with the lyrics.
- **A minor (Am):** Supports emotional depth during key lyrical moments.

Strumming Patterns and Playing Tips

The strumming pattern significantly affects the song's rhythm and emotional delivery. For "Strawberry Wine," a gentle, flowing strumming pattern complements the smooth vocal phrasing and lyrical storytelling. Commonly used patterns include a mix of downstrokes and upstrokes that create a steady tempo without overpowering the vocals. Practicing these patterns slowly at first helps build muscle memory and timing accuracy. Additionally, subtle dynamics such as softening the strum during verses and increasing intensity in the chorus enhance the song's emotional arc. Employing proper hand positioning and relaxed strumming techniques will result in a cleaner sound and reduce fatigue during performance.

- Start with a slow 4/4 rhythm emphasizing downstrokes on the beat
- Incorporate upstrokes on the off-beats to add texture
- Use palm muting lightly during verses to create intimacy
- Increase strumming intensity during the chorus for emotional impact
- Practice chord transitions to maintain smooth flow throughout

Common Variations and Performance Techniques

To personalize the performance while honoring the original composition, musicians often explore variations in chord voicings, fingerpicking patterns, and vocal phrasing. Fingerpicking offers an alternative to strumming, highlighting the song's melodic intricacies and adding a delicate texture. Advanced players may also experiment with capo placement to adjust the song's key to match their vocal range, which can make singing more comfortable and enhance the overall performance. Additionally, subtle embellishments such as hammer-ons, pull-offs, and slides between chords can enrich the arrangement.

without detracting from the song's simplicity and emotional resonance. Understanding these performance techniques is essential for musicians aiming to bring their unique expression to strawberry wine lyrics and chords.

- Use fingerpicking patterns to emphasize melody and harmony simultaneously
- Apply a capo on different frets to suit vocal range and tonal preference
- Incorporate hammer-ons and pull-offs for smoother chord transitions
- Adjust tempo slightly to create a more relaxed or upbeat mood
- Experiment with vocal dynamics to reflect the song's emotional nuances
