Strategies for Weapon Selection

Choosing the right weapon is critical for success in Tactics Ogre: Reborn. Here are some strategies to consider when selecting weapons for your characters:

Character Class Synergy

Different character classes excel with specific weapon types. For example:

- Knights benefit significantly from swords and axes due to their high defense and melee capabilities.
- Archers should focus on bows or crossbows to exploit their ranged attack bonuses.
- Mages will find staves and orbs most effective for enhancing their spellcasting abilities.

Understanding the strengths and weaknesses of each class can help players make more informed weapon choices.

Enemy Weakness Exploitation

Certain enemies are vulnerable to specific weapon types or elemental damage. For example:

- Ice-based enemies are weak to fire weapons.

- Earth-based foes may take increased damage from wind spells or weapons.

By equipping characters with weapons that exploit these weaknesses, players can turn the tide of battle in their favor.

Balancing Weapon Durability

Durability is a crucial aspect to keep in mind, especially in prolonged battles. Players should manage the wear and tear on their weapons by:
