Understanding Teaching Feeling

Teaching Feeling is a visual novel and simulation game that revolves around the protagonist's interaction with a girl named Sylph. The game explores themes of care, affection, and emotional connection. Players are tasked with nurturing Sylph, helping her grow as a character throughout the story. The choices made by the player significantly influence the outcome of the game, leading to multiple endings.

Game Mechanics

1. **Character Interaction:** Players can engage with Sylph through various dialogue options and actions. Building a relationship with her is key to progressing in the game.
2. **Affection and Trust:** The game features an affection system where player choices affect Sylph's feelings towards the protagonist. Higher affection levels unlock new interactions and story arcs.
3. **Time Management:** Players must manage their time effectively, balancing between different activities such as teaching, playing, and caring for Sylph.
4. **Multiple Endings:** The game offers various endings depending on the player's choices. This encourages replayability as players can explore different paths.

Walkthrough for Version 4
