Origins and Background of The Hunting of the Snark

The hunting of the snark was written by Lewis Carroll, the pen name of Charles Lutwidge Dodgson, who is also famous for his work "Alice's Adventures in Wonderland." The poem was first published in 1876 and is considered one of Carroll's major works of nonsense literature. Its creation was influenced by a combination of Carroll's mathematical background, love of wordplay, and interest in absurdity and whimsy. The poem was originally inspired by a private joke and a nonsensical limerick, which Carroll expanded into a longer narrative.

Publication History

The poem was initially published as a book with illustrations by Henry Holiday, which helped to enhance its surreal and mysterious tone. It quickly gained popularity among Victorian readers and has since been reprinted in numerous editions worldwide. The hunting of the snark remained a subject of academic study and popular curiosity throughout the years.

Context in Victorian Literature

During the Victorian era, nonsense literature was a popular genre that challenged conventional storytelling and language rules. The hunting of the snark fits perfectly within this genre, combining playful absurdity with subtle critiques of Victorian society and human nature. It reflects the era's fascination with exploration, adventure, and the unknown.

Literary Analysis and Themes

The hunting of the snark is notable for its complex use of language, structure, and thematic depth. While on the surface it appears to be a nonsensical adventure, deeper readings reveal a variety of themes related to uncertainty, fear, identity, and the pursuit of the unattainable. The poem's narrative structure and poetic devices contribute significantly to its enduring appeal.

Structure and Style

The poem consists of eight cantos, each composed of several stanzas written in a consistent meter and rhyme scheme. Carroll's use of repetition, invented words, and playful syntax creates a rhythmic and captivating experience. The hunting of the snark employs a conversational tone that masks its underlying complexity.

Major Themes

Several themes emerge prominently in the poem:

- **Fear and Danger:** The characters face various threats, such as the Boojum, which represents hidden dangers in seemingly innocent pursuits.
- **Identity and Self-Discovery:** The hunters' vague identities and roles highlight themes of uncertainty and the search for meaning.

Characters in The Hunting of the Snark

The poem features a unique cast of characters, each representing different traits and adding layers of meaning to the narrative. Their personalities and roles contribute to the overall allegorical and humorous tone of the work.

The Bellman

The Bellman serves as the leader of the hunting party. He is authoritative and confident, often issuing commands and guiding the group. His role as a leader is ironic, given the ambiguous nature of the quest and the uncertain identity of the Snark.

The Hunting Party

The hunting party consists of various eccentric characters, including the Boots, the Butcher, the Banker, the Barrister, the Broker, and the Bonnet-Maker. Each character has distinctive traits and skills, yet all share confusion about the nature of their quest and the creature they pursue.

The Snark and the Boojum

The Snark is the mysterious creature being hunted, described vaguely and with elusive qualities. The Boojum, a feared type of Snark, introduces a sense of danger, as encountering it results in the hunter's disappearance. This duality enhances the poem's tension between whimsy and threat.
