1. **What is the biggest challenge facing young people**

today?

Suggested Answer:

"The biggest challenge facing young people today is the pressure to conform to societal standards, particularly through social media. With curated images and lifestyles dominating platforms, many young individuals grapple with self-esteem issues and unrealistic expectations. I believe it is crucial to foster a culture that promotes authenticity and self-acceptance, encouraging young people to embrace their uniqueness and prioritize mental health."

2. If you could change one thing about the world, what would it be and why?

Suggested Answer:

"If I could change one thing about the world, it would be to eliminate poverty. Poverty not only affects individuals' ability to access basic needs like food, shelter, and education, but it also stifles potential and perpetuates a cycle of despair. By addressing poverty, we can create opportunities for individuals to thrive, contribute to their communities, and ultimately foster a more equitable world. Initiatives like education reform and economic development programs can empower those in need."

3. How do you define success, and how do you measure it in your life?

Suggested Answer:

"I define success as the ability to achieve personal goals while positively impacting others. Success isn't just about wealth or recognition; it's about fulfillment and contribution. 4. What is your opinion on beauty standards in today's society?

Suggested Answer:

"My opinion on beauty standards in today's society is that they are increasingly diverse yet often still unrealistic. It's vital for us to promote a definition of beauty that encompasses individuality and authenticity, encouraging everyone to find beauty in their uniqueness."

Suggested Answer:

"If I had the opportunity to speak with a world leader, I would express the

importance of prioritizing climate change action. The future of our planet relies on immediate and significant changes in policy and practice. I would encourage them to invest in sustainable development, promote renewable energy, and engage young people in the conversation about our environment. The youth are the future, and it's essential that they have a voice in shaping policies that will affect their lives."

6. What would you do if you were given a million dollars to donate to a cause?

Suggested Answer:

"If I were given a million dollars to donate to a cause, I would allocate the funds to education initiatives, particularly in underserved communities. This experience taught me the importance of resilience and asking for help when needed."
