Trophy Ridge React 5 Pin Sight Instructions

The Trophy Ridge React 5 Pin Sight is a top-tier bow sight designed to enhance accuracy and performance in archery. With its intuitive features and advanced technology, it allows archers to achieve precise aiming and quick adjustments. This comprehensive guide will walk you through the setup, adjustment, and maintenance of your Trophy Ridge React 5 Pin Sight, ensuring you get the most out of your equipment.

Overview of the Trophy Ridge React 5 Pin Sight

The Trophy Ridge React 5 Pin Sight is equipped with five individually adjustable pins, which provide versatility for shooters of all skill levels. The standout feature of this sight is its React Technology, which automatically adjusts the other pins based on the distance and adjustments made to the top pin. This innovation significantly simplifies the process of setting up and calibrating your sight, allowing you to focus more on your shot and less on your equipment.

Getting Started: Unboxing and Initial Inspection

Upon receiving your Trophy Ridge React 5 Pin Sight, it's essential to conduct an initial inspection to ensure that all components are included and in good condition. Here's what to do:

1. **Unbox Carefully:** Remove the sight from its packaging, taking care not to damage any parts.
2. **Check Components:** Ensure that you have all necessary components, including:
 - The React 5 Pin Sight itself
 - Mounting hardware (screws, washers, etc.)

- Allen wrenches for adjustments

- Instruction manual

3. Inspect for Damage: Look for any signs of damage or defects. If you find any, contact the retailer or manufacturer for assistance.

Installation of the Trophy Ridge React 5 Pin Sight

Installing the Trophy Ridge React 5 Pin Sight requires careful attention to detail to ensure proper alignment and functionality.

Tools Needed

- Allen wrenches (included)

- A screwdriver (if necessary for your bow)

- Level (optional but recommended)

Step-by-Step Installation Instructions

1. Remove the Old Sight: If you are replacing an existing sight, carefully remove it by unscrewing it from your bow riser.

2. Prepare the Bow: Clean the area where the new sight will be mounted to ensure a good fit.

3. Align the Sight: Position the React 5 Pin Sight on the riser at your preferred height and angle. It's usually best to mount it as low as possible for a better line of sight.

4. Secure the Sight: Using the provided mounting hardware, securely attach the sight to the bow. Ensure that it is tight enough to prevent movement during use.

5. Check Alignment: Use a level to ensure that the sight is mounted straight. This step is crucial for accurate shooting.

Adjusting the Pins for Optimal Performance

Once your sight is installed, the next step is to adjust the pins for proper alignment and distance settings.

Setting the Top Pin

1. Choose Your Distance: Select a distance to sight in your top pin (usually 20 yards is recommended for beginners).
2. Aiming: Using a target at the chosen distance, aim your top pin at the bullseye and shoot.
3. Adjusting the Pin: If your shot is off, use the windage and elevation adjustments to move the top pin accordingly:
 - Elevation: Turn the adjustment knob clockwise to raise the pin and counterclockwise to lower it.
 - Windage: Turn the adjustment knob right to move the pin right and left to move it left.

Using React Technology for Pin Adjustments

One of the unique features of the Trophy Ridge React 5 Pin Sight is its React Technology, which allows you to adjust the other pins based on the top pin's settings.

1. Sight in the Top Pin: After you have accurately adjusted the top pin, shoot at various distances (such as 20, 30, 40, and 50 yards).
2. Automatic Adjustments: The React Technology will automatically adjust the other pins based on the adjustments made to the top pin, ensuring that all pins are perfectly calibrated.

Fine-Tuning the Other Pins

1. Check Each Pin: After the automatic adjustments, check each pin by shooting at the respective distances.
2. Manual Adjustments: If necessary, make manual adjustments to any pins that are still off using the windage and elevation adjustments.

Maintenance of the Trophy Ridge React 5 Pin Sight

To ensure longevity and optimal performance of your Trophy Ridge React 5 Pin Sight, regular maintenance is essential.

Cleaning Your Sight

- Dust and Dirt Removal: Regularly wipe down the sight to remove dust and dirt. Use a soft cloth and avoid harsh chemicals.
- Lens Care: If your sight has any lens components, clean them carefully with lens cleaner and a microfiber cloth.

Regular Check-ups

- Tightness of Screws: Periodically check all screws and adjustments to ensure they are tight and secure.
- Pin Visibility: Ensure that the pins are visible and not obstructed by dirt or debris.

Troubleshooting Common Issues

Despite its robust design, you may encounter issues with your Trophy Ridge React 5 Pin Sight. Here are some common problems and their solutions:

1. Pins Not Aligning:

- Ensure that the sight is mounted securely and that all screws are tightened.
- Recheck the setup and adjustments of the top pin.

2. Difficulty Adjusting Pins:

- Make sure you are using the correct tools and that the adjustment knobs are functioning properly.
- If the knobs are stuck, apply a small amount of lubricant.

3. Inconsistent Shots:

- Check your form and shot consistency, as inconsistent shooting can lead to inaccurate results.
- Verify that the sight is properly aligned and calibrated.

Conclusion

The Trophy Ridge React 5 Pin Sight is an excellent addition to any archer's gear, providing advanced technology and ease of use. By following the installation, adjustment, and maintenance guidelines outlined in this article, you can ensure that your sight performs at its best. Whether you are a beginner or an experienced archer, mastering the use of your Trophy Ridge React 5 Pin Sight will enhance your shooting experience and improve your accuracy in the field. With proper care and attention, this sight will serve you well through countless successful hunts and target sessions.

Frequently Asked Questions

What are the basic installation steps for the Trophy Ridge React 5 Pin Sight?

To install the Trophy Ridge React 5 Pin Sight, first, remove the old sight from your bow. Then, attach the React 5 sight to the sight mount using the provided screws, ensuring it is level. Adjust the sight to your desired height and position before tightening all screws securely.

How do I adjust the pins on my Trophy Ridge React 5 Pin Sight?

To adjust the pins, use the tool provided with the sight. Turn the adjustment knobs for windage and elevation to move the pins up or down, left or right. Make small adjustments and test the sight in between to ensure accuracy.

What is the purpose of the React Technology in the Trophy Ridge React 5 Pin Sight?

React Technology automatically adjusts the other pins based on the movement of the first pin. This means that when you set the distance for one pin, the other pins adjust accordingly, providing a more accurate sighting system without needing to manually adjust each pin.

How do I sight in my Trophy Ridge React 5 Pin Sight for different distances?

Start by setting your first pin for 20 yards. Once that pin is sighted in, shoot at 30 yards and use the React Technology to automatically adjust the other pins. Continue this process for longer distances, ensuring each pin is accurately set.

What maintenance is required for the Trophy Ridge React 5 Pin Sight?

Regularly check the tightness of all screws and adjustments. Clean the lens with a soft cloth to remove dirt and debris, and inspect the sight for any signs of wear or damage. It's also a good idea to recalibrate your sight before each hunting season.

Can I use the Trophy Ridge React 5 Pin Sight in low light conditions?

Yes, the Trophy Ridge React 5 Pin Sight is designed with fiber optic pins that enhance visibility in low light conditions. However, always ensure you have adequate light for the best accuracy and use caution when hunting at dawn or dusk.

Is there a warranty on the Trophy Ridge React 5 Pin Sight?

Yes, Trophy Ridge typically offers a limited lifetime warranty on their sights, covering defects in materials and workmanship. Be sure to register your product and keep your receipt for warranty claims.
