

trophy ridge react 5 pin sight manual

Trophy Ridge React 5 Pin Sight Manual is an essential resource for archers looking to maximize their performance with this advanced sighting system. The React 5 is designed to provide unparalleled precision and adaptability, making it a favorite among bowhunters and target shooters alike. This article serves as a comprehensive guide to the Trophy Ridge React 5, detailing its features, setup process, maintenance tips, and more.

Understanding the Trophy Ridge React 5 Pin Sight

The Trophy Ridge React 5 Pin Sight is engineered for accuracy and ease of use. Its standout feature is the React Technology, which automatically adjusts the pins based on the distance to the target. This innovative feature ensures that your pins are always calibrated for optimal performance.

Key Features of the React 5

1. React Technology: Automatically adjusts the second and third pins when you set the first pin, ensuring consistent accuracy.
2. Tool-less Design: Allows for easy adjustments on the fly, making it ideal for dynamic shooting situations.
3. Micro-Adjustable Windage and Elevation: Provides fine-tuning adjustments for precise aiming.
4. Durable Construction: Built with high-quality materials to withstand harsh conditions.
5. Lightweight: Designed to be compact and lightweight, ensuring minimal impact on your bow's balance.

Setting Up Your Trophy Ridge React 5 Pin Sight

Proper installation and setup of the Trophy Ridge React 5 Pin Sight is crucial for achieving the best results. Follow these steps to get started:

Tools Required

- Phillips screwdriver
- Allen wrenches (included)
- A level
- Bow press (optional)

Installation Steps

1. **Remove Existing Sight:** If you have an existing sight, carefully remove it from your bow. Use a Phillips screwdriver to take out the screws.
2. **Attach the React 5:** Line up the mounting bracket of the React 5 with the bow's riser. Secure it in place using the provided screws, ensuring it is firmly attached.
3. **Level the Sight:** Use a level to ensure your sight is perfectly horizontal. Adjust as necessary for accuracy.
4. **Install the Sight Pins:** Insert the pins into the sight housing. The React 5 typically comes with five pins; position them according to your personal preference.
5. **Set the First Pin:** Select a distance (commonly 20 yards) and adjust your first pin to align with that target. This is the foundational step for the React Technology.
6. **Calibrate Remaining Pins:** After setting your first pin, the React Technology will automatically adjust the remaining pins. Verify their accuracy by shooting at various distances.
7. **Fine-Tune Adjustments:** Use the micro-adjustable windage and elevation settings to make any necessary corrections.

Using the Trophy Ridge React 5 Pin Sight in the Field

Once your sight is set up, it's time to take it into the field. Here are some tips for using your Trophy Ridge React 5 effectively:

Shooting Techniques

- **Stance and Grip:** Maintain a consistent stance and grip on your bow to ensure accuracy.
- **Aiming:** Use the appropriate pin for the distance to your target. The React Technology will help ensure all pins are calibrated correctly.
- **Follow Through:** After releasing the arrow, maintain your stance and follow through to improve accuracy.

Adjusting for Different Conditions

- **Wind:** Be aware of wind conditions and how they can affect your shot. Adjust your aim accordingly.
- **Lighting:** In low-light conditions, consider using a sight light to illuminate your pins for better visibility.

Maintenance of the Trophy Ridge React 5 Pin Sight

To ensure longevity and optimal performance of your Trophy Ridge React 5 Pin Sight, regular maintenance is essential.

Regular Checks

- Inspect the Pins: Regularly check the pins for any wear or damage. Replace them if necessary.
- Tighten Screws: Periodically check all screws and adjustments to ensure they are tight and secure.
- Clean the Lens: If your sight has a lens, clean it with a soft cloth to remove dirt and debris.

Storage Tips

- Use a Bow Case: Always store your bow with the sight in a protective case to prevent damage.
- Avoid Extreme Temperatures: Store your bow in a temperature-controlled environment to avoid damage from extreme heat or cold.

Common Issues and Troubleshooting

Even with the best equipment, issues may arise. Here are some common problems and their solutions:

Pin Misalignment

- Issue: Pins may become misaligned after heavy use or adjustment.
- Solution: Re-check your installation and make sure all screws are tightly secured. Re-align the pins as needed.

Difficulty Adjusting Pins

- Issue: If you find it hard to adjust the pins, it may be due to dirt or debris.
- Solution: Clean the adjustment knobs and ensure they are free of obstruction.

React Technology Malfunctions

- Issue: The React Technology may not be adjusting correctly.
- Solution: Verify that the first pin is accurately set. If issues persist, consult the manual for detailed troubleshooting steps.

Conclusion

The Trophy Ridge React 5 Pin Sight Manual provides archers with the necessary insights to set up, use, and maintain their sight effectively. With its advanced features and user-friendly design, the

React 5 is a fantastic addition to any archer's toolkit. Proper setup and routine maintenance will ensure you get the most out of your sight, helping you to hit your mark with confidence. Whether you're a seasoned hunter or a beginner, understanding the nuances of your equipment is key to improving your shooting skills.

Frequently Asked Questions

What is the Trophy Ridge React 5 Pin Sight and how does it work?

The Trophy Ridge React 5 Pin Sight is a bow sight designed for archers and bowhunters. It features five individually adjustable pins that automatically adjust their position based on distance, thanks to its React Technology, which ensures accuracy and precision for various shooting distances.

How do I properly adjust the pins on my Trophy Ridge React 5 Pin Sight?

To adjust the pins, start by sighting in at a specific distance, usually 20 yards. Use the adjustment knobs to move the pins until they are aligned with the target. The React Technology will then automatically adjust the remaining pins based on the 20-yard setting, allowing you to shoot accurately at longer distances.

What tools do I need for installation and adjustment of the Trophy Ridge React 5 Pin Sight?

You typically need a Phillips screwdriver for installation, and an Allen wrench may be required for fine adjustments. Make sure to also have a level to ensure the sight is mounted correctly on your bow.

Can the Trophy Ridge React 5 Pin Sight be used in low light conditions?

Yes, the Trophy Ridge React 5 Pin Sight is designed with illuminated pins, making it suitable for low light conditions. This feature helps enhance visibility during dawn or dusk, allowing for better targeting.

What is the recommended maintenance for the Trophy Ridge React 5 Pin Sight?

Regular maintenance includes checking the tightness of the mounting screws and adjustment knobs, cleaning the lenses to remove dirt or debris, and ensuring that the pins are not bent or damaged. It's advisable to inspect the sight before each hunting season.

Is the Trophy Ridge React 5 Pin Sight compatible with all bows?

The Trophy Ridge React 5 Pin Sight is designed to be compatible with most compound bows. However, it's important to check the specific mounting requirements and dimensions of your bow to ensure proper fit and alignment.
