Understanding Verbs

Verbs are action words that describe what a subject is doing. They are a crucial part of speech, as they convey actions, conditions, or states of being. In grade 3, students typically learn to identify and use verbs correctly in sentences. This foundational knowledge will serve them well as they continue their education.

Types of Verbs

There are several types of verbs that students need to familiarize themselves with. Understanding these categories will help them use verbs correctly in their writing.

- **Action Verbs:** These verbs express physical or mental activities. For example: run, think, eat, and sing.
- **Linking Verbs:** These verbs connect the subject of a sentence to additional information about the subject. Common linking verbs include forms of "to be" (is, are, was, were) and verbs like "seem" and "become."
- **Helping Verbs:** Helping verbs work alongside main verbs to create verb phrases. Examples include "is," "are," "has," and "will."
- **Transitive and Intransitive Verbs:** Transitive verbs require an object to complete their meaning (e.g., "She kicked the ball"), whereas intransitive verbs do not (e.g., "He sleeps").

The Importance of Verb Worksheets
