- Choose words that contain common vowels and consonants. Words like "audio," "salet," or "stone" can reveal valuable information.

2. Analyze Feedback

- After each guess, carefully analyze which letters are marked as green, yellow, or gray. This feedback is crucial in narrowing down your next guess.

3. Avoid Repeating Letters

- Unless you are certain a letter is in the word, avoid guessing the same letters repeatedly, especially if

they have been marked gray.

4. Think Broadly

- Don't limit yourself to conventional five-letter words. Sometimes, less common words may be the answer, so keep an open mind.

5. Use Online Tools Wisely

- While it's tempting to use online solvers, try to limit their use to when you're really stuck. This helps maintain the challenge and enjoyment of the game.
